

ICoTA Canada 2022 Roundtable

Nov 2nd 2022 @ The Hudson, Calgary

7.00 am –	Registration & Buffet Breakfast
8.00 am -	Opening Remarks – President ICoTA Canada
8.05 am –	Successful e-line deployed technology for casing impairment intervention – Anthony Macleod (Welltec)
8.30 am –	Modern extended reach tools and a solution to well safety – Marc Gagne (Talon)
8.55 am –	Real-time modelling and performance metrics for wireline operations – Paul Brown (CoilData)
9.20 am –	Acoustic mapping of fibre optic hardware on the casing exterior – Tamara Maxwell (DarkVision)
9.45 am -	Coffee Break & Exhibition (40 mins)
10.25 am –	Correlating sour gas testing with successful use of high strength Q&T coiled tubing – Kevin Elliott (NOV)
10.50 am –	Variable diameter coiled tubing: a new type of failure – John Yeung (Element)
11.15 am –	Fatigue tests on Q&T coiled tubing at high H2S partial pressures – Carmen Grimaldo (Tenaris)
11.40 am –	Innovative applications of oil soluble tracers in stimulated & unstimulated wells – V. Ramanathan (Torxen)
12.05 pm –	Group photograph (presenters only)
12.05 pm –	Lunch
12.05 pm – 12.45 pm –	Lunch Keynote Address – Dr. Catherine Hickson (President Geothermal Canada)
-	
-	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada)
12.45 pm –	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal
12.45 pm – 1.30 pm –	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint)
12.45 pm – 1.30 pm – 1.35 pm –	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha)
12.45 pm - 1.30 pm - 1.35 pm - 2.00 pm - 2.25 pm -	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha) Challenges associated with hydrogen embrittlement in pipelines – Frank Cheng (University of Calgary)
12.45 pm - 1.30 pm - 1.35 pm - 2.00 pm - 2.25 pm -	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha) Challenges associated with hydrogen embrittlement in pipelines – Frank Cheng (University of Calgary) Alternative products for well remediation and closure – Fred Wassmuth (InnoTech Alberta)
12.45 pm – 1.30 pm – 1.35 pm – 2.00 pm – 2.25 pm –	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha) Challenges associated with hydrogen embrittlement in pipelines – Frank Cheng (University of Calgary) Alternative products for well remediation and closure – Fred Wassmuth (InnoTech Alberta) Coffee Break & Exhibition (25mins)
12.45 pm - 1.30 pm - 1.35 pm - 2.00 pm - 2.25 pm - 2.50 pm - 3.15 pm -	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha) Challenges associated with hydrogen embrittlement in pipelines – Frank Cheng (University of Calgary) Alternative products for well remediation and closure – Fred Wassmuth (InnoTech Alberta) Coffee Break & Exhibition (25mins) Geomechanics data: a novel approach to its acquisition – Cory Fehr (Integrity Insitu)
12.45 pm - 1.30 pm - 1.35 pm - 2.00 pm - 2.25 pm - 2.50 pm - 3.15 pm - 3.40 pm -	Keynote Address – Dr. Catherine Hickson (President Geothermal Canada) Decarbonising Heat: the role of the geothermal and oil & gas industry in this globally important goal ICoTA Canada Innovation Award – Michael Bosdet (Copoint) CCS development in western Canada and the roles of well service companies - Bob Bryden (Carbon Alpha) Challenges associated with hydrogen embrittlement in pipelines – Frank Cheng (University of Calgary) Alternative products for well remediation and closure – Fred Wassmuth (InnoTech Alberta) Coffee Break & Exhibition (25mins) Geomechanics data: a novel approach to its acquisition – Cory Fehr (Integrity Insitu) Posi-lock remote wellhead connection – Brent Goy (NXL technologies) Snub drilling the longest wells in Canada – Ross Whelan (Piston Well Services)

4.35 pm - Sponsored Cocktails & Exhibition
